

A Six Year-Old Girl Picking Cotton

A Six Year-Old Girl Picking Cotton

6-year old Jewel Walker picks cotton in Comanche County, Oklahoma. Other pictures taken in Comanche include quotations from parents and children, and detail about their labor. For example, Jewel and her younger brother, Harold (not depicted), pick 20 to 25 pounds of cotton. Their father said "I promised em a little wagon if they'd pick steady, and now they have half a bagful in just a little while."

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
