Covered wagon

Covered wagon

This covered wagon was photographed at Fort Bridger in Wyoming.

From LoC: "Covered wagon at Fort Bridger, a Wyoming state historical site in the tiny Uinta County town of the same name in the southwestern corner of that state. Established by "mountain man" Jim Bridger and Louis Vasquez in 1843 as an emigrant supply stop along the Oregon Trail, the fort was obtained by the Mormons in the early 1850s, and then became a military outpost in 1858."

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a

speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
