

Bill Clinton

Bill Clinton (1946-)

Bill Clinton was the 42nd president of the United States from 1993-2001. Clinton was born in Hope, Arkansas in August 19, 1946. Clinton's political beginnings are found in his high school years when he went to the White House as a delegate for Boys Nation. There he met President John Kennedy. Clinton would later earn a law degree from Yale in 1973. Clinton continued to build his political career through local government, and then set his eye for presidency in 1992. Like many presidents, Clinton's presidency had its ups and downs, such as, achieving a budget surplus and his issue with Monica Lewinsky.

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
