# Running record: Self-correction

Running record: Self-correction

When a student reads a word incorrectly and then immediately corrects the mistake, the behavior is noted in a four-square grid: at left, the spoken word is written above the expected word, and then in the upper right square, the letters SC are written.

$$\checkmark\checkmark\checkmark\checkmark\checkmark \quad \frac{\text{soap}}{\text{soup}} \,\bigg|\, \text{SC}$$
