

Raising the flag on Iwo Jima

Raising the flag on Iwo Jima

Raising the flag on Iwo Jima

In one of the most famous photographs from World War II, U.S. Marines raise the flag atop Mount Suribachi on the Pacific island of Iwo, Jima. The battle for the island was bloody and hard fought. This photograph, by photographer, Joe Rosenthal of the Associated Press, was actually a reenactment of the raising of the flag after the battle.

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
