### The Manner of Making Their Boats

"The Manner of Makinge Their Boates." Theodor de Bry's engraving of American Indian men making boats, published in Thomas Hariot's 1588 book *A Briefe and True Report of the New Found Land of Virginia*. In the foreground, two men are working on a hollowed-out tree, from which smoke and flames are rising. In the background two other men are working on a fallen tree. A third tree to their right has a fire burning at its base.

**Usage Statement:**

### Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
