

The first picket line

The first picket line

This black and white image shows a photograph that appears to be adhered to a black piece of paper, perhaps a page in a scrapbook. In the photo, nine women stand in front of the White House fence picketing for suffrage. It seems to be a cold day: the trees are bereft of leaves and all of the women are wearing long dresses and coats and hats. Their clothing is dark in color, which contrasts with the white banners they wear across their chests printed with the name of the college or university they attended. The women are also carrying flags and two signs. One sign reads "Mr. President how long must women wait for liberty" and the other reads "Mr. President what will you do for woman suffrage." On the page above the photo, someone has written: "The first picket line College Day in the picket line - Feb. 1917"

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
