

## World War II in North Carolina: Principal installations, camps, industries, and facilities

## World War II

Principal Installations, Camps,  
Industries, and Facilities

This map illustrates the strategic distribution of military and industrial resources across North Carolina during World War II. It highlights key locations such as Fort Bragg, Camp Davis, and various naval air stations, alongside major industrial plants like the Aluminum Company of America and Chrysler Manufacturing. The map also identifies coastal defense points, prisoner-of-war camps, and areas affected by German submarine attacks.
