

Central high school, gymnastic drill

Central high school, gymnastic drill

The cameraman placed his equipment at the edge of a school yard where supervised gymnastics were being conducted by high school students. Male students can be seen doing the long and short “horse” exercises to the left of the camera position. In the center, a group of young girls are engaged in using the parallel bars and to the right of the camera, some older boys in white clothing are executing several difficult exercises on the high parallel bars. Across the extent of the visibility of the camera is a blackboard with the words “Kansas City, Mo.”

Video:  Central high school, gymnastic drill

Duration: :51

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
