Elon University

by George W. Troxler, 2006

Elon began offering graduate degrees (in business administration and education) in the 1980s, and by the early 2000s it was the third-largest private school in North Carolina. Elon is one of two private colleges in the state selected to offer the North Carolina Teaching Fellows Program [7]. Enrollment totals about 5,000, including 250 graduate students. In 2000 the Elon board of trustees approved a name change from Elon College to Elon University, marking the institution’s successful growth into a comprehensive undergraduate university.
