

## **marsh** <sup>[1]</sup>

### **Type of Speech:**

noun <sup>[2]</sup>

### **Definition:**

a low-lying wet land with grassy vegetation; usually is a transition zone between land and water. A marsh is different from a swamp, which is dominated by trees rather than grasses and low herbs. The water of a marsh can be fresh, brackish, or saline. Coastal marshes may be associated with estuaries and along waterways between coastal barrier islands and the inner coast.
